

This diary is the beginning of one woman's journey through the sadness and heartbreak of betrayal and infidelity... from the first painful moments of discovery... through the shock and despair of the truth... Anyone who has ever loved and lost will find themselves somewhere on these pages... and every step of the way is shared... with you... There are some things in life that are universally felt ...no matter what language we speak ... or what culture we come from ... It doesn't matter if we're young ... or old ... male ... or female ... wrong ... or right ... We all feel love ... we all feel pain ... and we all feel everything that life and love bring to us in between ... The words that fill these pages came to be ... because my heart was breaking ... and there was nothing I could do ... but feel it ... Each new day took me on a journey full of memories ... and misery ... endlessly haunting me ... until finally ... I put my pen to paper ... and began to write ... every day ... and ... every night ... Sometimes ... to remember ... sometimes ... to forget ... Sometimes it was the only thing that kept me from going crazy ... and from giving up on everything ... and everyone ... I wrote my heart out ... because I had to ... and I found a way to help myself ... to heal ... and to find my way back ... to love ... This is my heart ... from the end ... to the beginning ... This is my journey ... Come share it with me ...
