

There's nothing worse than not knowing... On a hot summer evening, a young woman's body is discovered in a small Tennessee town. When another girl vanishes on her way home from work, Special Agent Selena Marrenger takes on the case. All signs point to a terrifying serial killer with a unique modus operandi: a chemical used in state executions that isn't found in Tennessee. As Selena inches closer to the unnerving truth, she starts to believe that something much larger - and sinister - is at play. Probing local law enforcement for answers unearths a well hidden secret woven into the fabric of truth, justice, and madness. In this fast paced novel where nothing is quite what it seems, M.W. Griffith leads readers on a dangerous, twisting quest to bring justice to families whose lives have been changed forever by tragedy.
